CORE ELEMENTS

COMPANY PROFILE

01 INTRODUCTION

Core elements is a proudly South African female & youth owned company founded in 2015. We thrive on our solid reputation based on our quality workmanship, sound management principles and the ability to achieve our clients goals. We aim to complete projects effectively and efficiently focusing on our clients needs and requirements and committed to giving back to the

community and empowering social development while improving the quality of life for all surrounding communities. Along with the combined 50 + years of construction and civils

experience in our senior management team, we have exceptionally competent estimating staff who ensure well considered prices and

a constant supply of work.

03 COMPANY VISION

Our vision is for our clients to recognize Core Elements as a reliable business, which promptly delivers products and projects of the highest quality and integrity. We strive to be known as professional, approachable, open-minded and willing to take calculated risks to achieve better. Core Elements aims to provide job opportunities to better the lives of people around us, therefore allowing for them to better the lives of their family. We invest our time, energy and resources into local communities to create sustainable growth. Core Elements believes in creating global sustainability, as it is of great importance for future generations to come. We strongly stand by our values of honesty and integrity.

04 OUR MISSION

Core Elements maintains a high level of training and safety procedures for our employees, as health and safety is of paramount importance to us. Our employees form an integral part of this business and are treated with respect and consideration.
